KAPASA MAKASA UNIVERSITY
DEPARTMENT OF AGRICULTURE AND AQUATIC SCIENCES

GROUP ASSIGNMENT (TEST 2) -PRESENTATION

QUESTIONS AND GROUPS

GROUP 1

Can you elaborate on the different types of fish mouths, providing examples for each type?

MOYO ANITA
SIMUTENDA JOHN
ZULU FRANCISCO
BANDA JEREMIAH
MWALE DAVIES

GROUP 2

What are the primary causes of fish stress in aquaculture, and what are the associated disadvantages? Additionally, could you discuss effective methods for managing fish stress?

SAMBAMBI SAMANTHA
KABONDE PARDON
MUDENDA SIKABBUBBA
KONDWANI CHAVULA
SHIMAU GEOFFREY
BWALYA CHANSA

GROUP 3

Could you explain the various methods used for delivering feed to fish, highlighting the advantages and disadvantages of each method?

MWIINGA MARTHA
MWEEMBA ELVIS
SIMUMANDE SHADRICK
SIJATWA MERCY
NGWELE MICHAEL

GROUP 4

What are the advantages and disadvantages of utilizing Black Soldier Fly (BSF) as a protein source in fish feed?

WINA PRISCILLA
CHANDA MIKE
LWAMBA FREDRICK
CHILAMBE DANIEL
NAKAMBA FOSTER

GROUP 5

How do environmental factors impact the quality of fish feed during storage? Furthermore, what are the best practices for maintaining fish feed quality during storage?

MATIPA CHARITY
SIKOMBE REUBEN
MWANZA YONA
CHILESHE KABWE
NYIRENDA FRED

GROUP 6

Why is proper nutrition crucial for fish broodstock, and what are some common nutritional diseases associated with inadequate nutrition?

ILUNGA BEATRICE
DAKA KELLY
MULUMBA KELVIN
BANDA TAONGA
NKANDU JUSTINA
GROUP 7

What is the significance of Integrated Agriculture-Aquaculture (IAA), and could you provide two examples of IAA systems?

CHANSA GIFT
MUKUKA SIMON
CHIBANGA BENJAMIN
SAKALA EMMANUEL
CHUNGU HARRISON
GROUP 8

Can you discuss the interrelationships among the environment, pathogens, and fish within aquaculture facilities?

MWALE SARAH
NAMWIMBA DEBORAH
LIKELENGE EDWIN
CHILALA NOMSA
MALAMA KABWE

GROUP 9

Could you elaborate on the causative agent, predisposing factors, clinical signs/symptoms, modes of transmission, and preventive measures for Saprolegniasis in aquaculture?

NDOSO FORTUNATE
PHIRI CHARLES
BANDA FREDRICK
DAKA KENZY
MWILA MICAH

GROUP 10

Discuss the causative agent, clinical signs/symptoms, modes of transmission, and preventive measures for Tilapia Lake Virus.

CHINYAMA ANGELA
ZULU JAMES
SHUMBA TINAISHE
KAMANGA MERCY
LUO NZALI NATASHA

GROUP 11

What are the effects of climate change on aquaculture?

MWICHE HELLEN
MUTAMBO SUWILANJI
CHILANDO MARTIN
KAZUMBA FORTUNATE
MULONGOTI COSMAS

GROUP 12

Could you provide an overview of the various methods used to formulate fish feed, with a specific focus on the Pearson method?

MANDA PRECIOUS
BESA ENOCK
NAMFUKWE FAITH
NAKAPITE TRIGHT
CHUMA JOSEPH
SUBAKANYA JISHUKO

GROUP 13

Please analyze the Strengths, Weaknesses, Opportunities, and Threats (SWOT) associated with Integrated Agriculture-Aquaculture (IAA).

MWANZA GLORIA
ZULU MUBANGA
MUMWENSI MAPENZI
SIAKAPONGO RACHEAL
CHISENGA PHILIMON

GROUP 14

Discuss the digestive systems (Herbivorous, Carnivorous, Omnivorous) of fish commonly used in aquaculture in Zambia.

KABWE JULIEN
MULENGA BELSHAZZER
MAMBWE MALAMA
CHISENGA NG'UNI
NANYANGWE STELLA

GROUP 15

What are some of the factors that have contributed to the development of aquaculture in Zambia?
MUCHELEKA.B. ELIZABETH
LUNGU SAMSON
MUMBA RABSON
MANG'ENDA MUTONDU
CHISHIMBA.S. JEREMIAH
