CYS340 – 2025 EXPECTED TEST 2 QUESTIONS

1. Define the term Malware [2 Marks]
2. What does Mal mean in Spanish? [1 Mark]
3. In which year was the term malware coined? [1 Mark]
4. In which year did malware became frequently used? [1 Mark]
5. What was the name of the first malware created? [1 Mark]
6. When was the malware mentioned in Q5 created? [1 Marks]
7. What was the first Anti-Virus software created to detect and destroy the malware mentioned in Q5? [1 Mark]
8. List at least three (3) purposes why people create/distribute malware. [3 Marks]
9. How can one distribute malware? [4 Marks]
10. Using a visual diagram, explain the five (5) stages of malware attack. [5 Marks]

Total: [20 Marks]

11. List the three (3) major types of malwares. [3 Marks]
12. Define the types of malwares mentioned in Q11. [6 Marks]
13. List and explain at least three (3) types of Viruses. [6 Marks]
14. List and explain the two (2) types of computer worms. [4 Marks]

Total: [19 Marks]

15. List and explain at least four (4) types of Trojan Horses. [8 Marks]
16. Explain how an attacker launches a Ransomware attack. [4 Marks]
17. List and explain the three (3) types of Ransomwares. [6 Marks]
18. Where was Ransomware discovered? [1 Mark]
19. In which year (s) was the Ransomware attack discovered? [1 Mark]
20. In which year was the Crypto-ransomware discovered? [1 Mark]

Total: [21 Marks]

Section B (Cloud forensics)

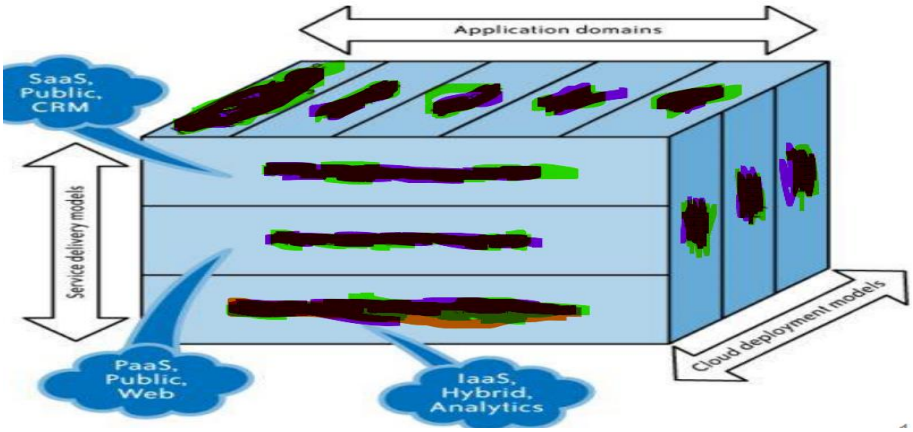

1. Define cloud forensics & explain with a diagram Cloud Reference MODEL [8 marks]
2. Explain cloud computing [2 marks]
3. Explain with a diagram service models aka cloud models [8 marks]
4. Service Models

Service model	Who uses it	Available services	Why use it

5. Explain with a diagram The cloud computing reference model [6 marks]
6. List and explain the cloud deployment models [8 marks]
7. Deployment Models or cloud types

	Infrastructure managed By[1]	Infrastructure Owned By[2]	Infrastructure Located[3]	Accessible and Consumed By[4]
Public				
Private /community				
Hybrid				

8. Show the Cloud Computing Framework diagram [10 marks]

9. What are the differences between Traditional data center vs cloud computing service at least (6) [6 marks]
10. What are the 5 ESSENTIAL CHARACTERISTICS OF CLOUD [5 marks]
11. Other common characteristics of cloud computing framework [8 marks]
12. Define DF according to NIST [2 marks]
13. Cloud Conceptual Reference Model list at least five (5) and explain Actors in clouting computing [10 marks]
14. Explain the Scope of Control between Provider and Consumer [5 marks]
15. Computer forensics process flow [5 marks]
16. Polly is back again!!!!
